

A network of ideas, joy in working and openness in cooperation are the three core principles that define our strong red thread at FCP: in the team, in action and in every single project. So if you have already experienced a lot but are still searching for more, then we want to link your skills with ours. Together we can not only shape the world but also redefine it for a better future.

For our office in Vienna we are looking for a

# BIM MANAGER INFRASTRUCTURE (m/f/d)

to strengthen our team.

## YOUR TASKS

- > Involvement in renowned international large-scale projects
- > Responsible and main contact person for all BIM aspects of the project
- > Coordination and management in interdisciplinary projects (interdisciplinary model coordination)
- > Analysis and interpretation of Employer Information Requirements (EIR)
- > Creation and processing of BIM execution plans (BEP)
- > Involvement throughout all phases of a project
- > Coordination of the federated model (supervision, quality control, tracking)
- > Preparation of quality assurance reports
- > Project acquisition activities (calculation of fee proposals, attendance at hearings, preparation of EIR/BEPs)

## OUR OFFER

- > Co-development and implementation of new technologies, office standards and object libraries
- > Long-term development in a growing and stable company
- > Gross annual salary from € 38,600 for 40 hours per week. Higher payment possible in accordance with individual qualification and experience. Your additional work and your commitment are compensated with time or money.
- > Onboarding programme with active mentoring in order to fast-track your start with FCP
- > High degree of creative freedom through participation in the corporate strategy in an extremely collegial environment
- > Numerous social benefits like health and fitness programme, lunch allowance etc.

## YOUR PROFILE

- > Well founded technical education (Technical College/Advanced Technical College/University)
- > At least 5 years of professional experience in the role of BIM coordination
- > Extensive skills in CAD/BIM software (e.g. Bentley, Autodesk, Nemetschek)
- > Deep understanding of openBIM (e.g. IFC data structure BCF)
- > Experience in coordination (e.g. DESITE, Navisworks or Solibri, etc)
- > Resilience, persistence and ability to handle conflicts
- > Consistency in approach
- > Independent and proactive work ethic, proven team player and a creative approach to problem solving
- > Appetite for continued professional and personal development

Have we aroused your interest? We would like to get to know you!

Please send your application consisting of a covering letter and a curriculum vitae with your professional profile or portfolio via our online form.
