

A network of ideas, joy in working and openness in cooperation are the three core principles that define our strong red thread at FCP: in the team, in action and in every single project. If you would like to prove yourself in practice after college/university and would like to work towards common goals with courage, curiosity and responsibility, we have the perfect job for you. Together we can not only shape the world but also redefine it for a better future.

For our office in Vienna we are looking for a

BIM MODELLER INFRASTRUCTURE (m/f/d)

to strengthen our team.

YOUR TASKS

- > Involvement in renowned international large-scale projects
- > Creation of BIM discipline specific models (e.g. track systems)
- > Extraction of 2D plans and schedules from BIM models (e.g. bills of materials/quantities)

OUR OFFER

- > Co-development and implementation of new technologies, office standards and object libraries
- > Long-term development in a growing and stable company
- > Gross annual salary from € 27,300 for 40 hours per week. Higher payment possible in accordance with individual qualification and experience. Your additional work and your commitment are compensated with time or money.
- > Onboarding programme with active mentoring in order to fast-track your start with FCP
- > High degree of creative freedom through participation in the corporate strategy in an extremely collegial environment
- > Numerous social benefits like health and fitness programme, lunch allowance, etc.

YOUR PROFILE

- > Well founded technical education (Technical College/Advanced Technical College/University)
- > Skills in CAD/BIM software (e.g. Bentley, Autodesk, Nemetschek)
- > Independent and proactive work ethic, proven team player and a creative approach to problem solving
- > Appetite for continued professional and personal development

Have we aroused your interest? We would like to get to know you!

Please send your application consisting of a covering letter and a curriculum vitae with your professional profile or portfolio via our online form.
